## What You Said

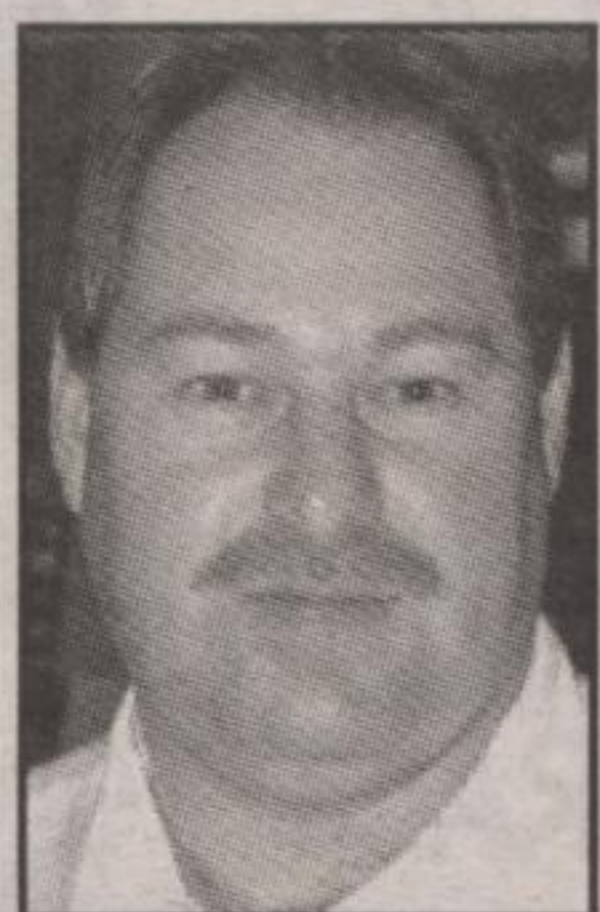

*'Do we need a tougher town fence bylaw?'*

**Lindsay Talevski**  
Georgetown student  
"Yes, I think we need a tougher bylaw. Fences should be a reasonable height. A fence as big as the one in the paper recently would be disturbing to live beside."

**Lisa Hall**  
Georgetown student  
"No. If a property owner wants to build a fence and his neighbour agrees they should be able to build the fence they want."

**Byron Conrad**  
Georgetown sales  
"Yes, we need a stricter bylaw. There should be height and quality restrictions. Fences in town should be a maximum height of six feet."

**Janet Allison**  
Georgetown farmer  
"Yes. I think a six foot fence is adequate for privacy."

## Dog bites man looking for truck owner

A Mississauga man received a dog bite when he stopped at a Clayhill Rd. home to enquire about a truck for sale last Tuesday.

Police report the man went to the door, but no one was home. There were two dogs loose on the property. A large black dog ripped the sleeve of his jacket and the second, a small-

er hound, bit his buttock puncturing the skin. The dogs had been vaccinated. The incident was reported to Halton Hills bylaw enforcement.

### School vandalism

About \$100 damage was caused to a picnic table and shrubs at the playground behind McKenzie-Smith Bennett sometime last weekend.

## What is the health of your wealth?

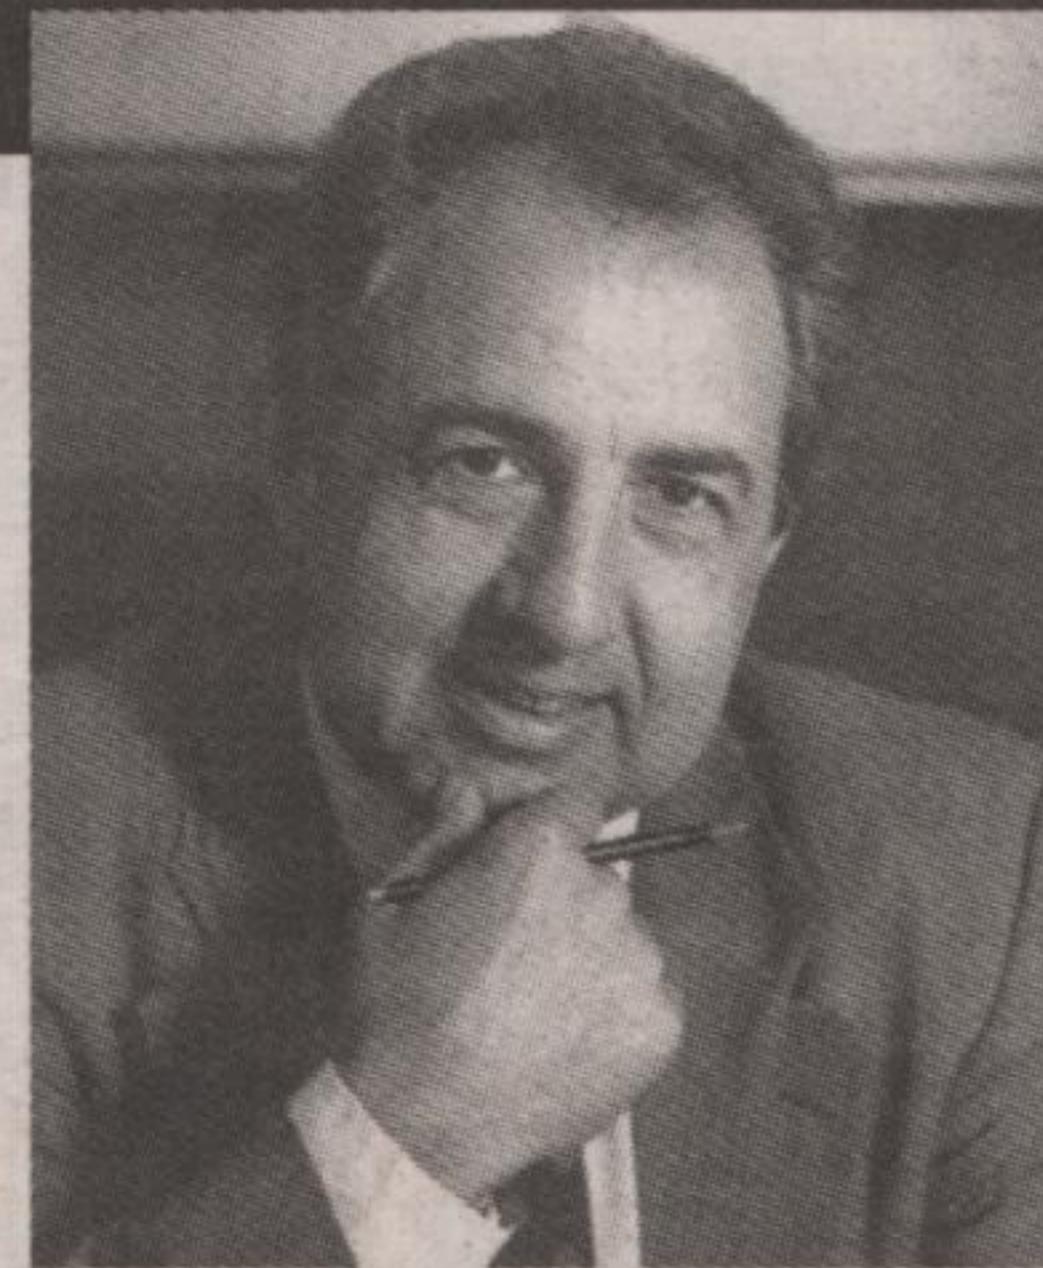

Like health, we all have wealth to one degree or another. But how do we keep it and improve it so that we, and our families, can depend on it?

**The Assante WEALTH HEALTH INDEX** is a unique financial management system designed for successful Canadians who want to review and enhance their financial affairs.

Using advanced wealth management tools, we will ensure that you have:

- A plan for secure retirement
- A sound investment strategy
- A tax-efficient estate plan
- Integrated business and personal goals

For a professional consultation, at no cost or obligation, on how you can benefit from this effective tool, please contact me for an appointment.

## EARTH DAY 2001 A RESOUNDING SUCCESS!

Halton Hills Mayor Kathy Gastle and members of council wish to thank the community and town staff for their participation in our Earth Day Celebration, on Saturday, April 21st, 2001 at the Public Works Yard on Trafalgar Road.

Approximately 700 vehicles passed through the works yard to pick up trees,

topsoil and wood chips.

A special thanks to A & P, McDonald's, and Tim Horton's, Georgetown, for refreshments, and to the Region of Halton for their continued support.

Earth Day activities promote environmental protection within our community and awareness for local initiatives.
