\*First visit by reservation only

I came to the club to look for furniture for a nursery. I found the perfect one. I was hesitant to order not knowing what it would actually look like, and if I was truly saving 50%. I went home that night, and searched the telephone book for companies that carried those products. I found it! The retail price of the crib, armoire and chest was \$6,000 not including tax. At the club I bought all three (identical) pieces for \$2,800.00, which included my taxes and freight. BOTH my husband and I love our little boy's bedroom set, and we always receive a lot of compliments. We have just bought a house, and I cannot wait to visit Mike and Linda at the club - just to brag!

Thank you UCC, I feel like I have all the money in the world!
