As complex as cars have become, it's a known fact they are lasting longer than they did a few decades ago.

But no matter how well cars are built, they still require maintenance and repairs to keep them running down the road.

Lifelong Halton Hills resident Mike Tellier, owner of Accurate Auto Analysis, is one of those people who can help extend a car's life.

At his 71 Mountainview Road N. shop, he specializes in transmission and exhaust repairs, having had 14 years in the business.

Working in the Halton Hills, Milton and Oakville areas during that time, he gathered the experience that made him open his own shop five months ago, and enjoys the challenge of being in business for himself.

"I specialize in all sorts of transmission repairs, right on-site," says Tellier. "All aspects—transmissions, transfer cases, the complete drive train, can be repaired here."

Everything from small repairs to full scale rebuilds are available at his shop.

Tellier's shop also repairs complete exhaust systems on all types of vehicles.

"I repair the complete exhaust system," he says, "From standard exhausts to performance, foreign cars, even chrome tips for your tail pipes—I can fix them all."

The shop is open Monday to Friday from 8 a.m. to 6 p.m., and Saturdays from 10 a.m. to 4 p.m. Tellier justifies his extended hours simply saying, "I've got to be open when people are off work, otherwise I'm not offering them full service."

Mike Tellier at Accurate Auto Analysis can be reached at 905-877-3521.
