

Police blotter

Bar patrons charged after door damaged

Halton Police charged two men at Nashville North Saturday night after a patron damaged a door.

Police report two men were thrown out of the bar because they were intoxicated and one of the men kicked the door causing \$300 damage.

Charged with mischief under \$5,000 and public intoxication is Todd Ricard, 25, of Scarborough. Also charged with public intoxication is Glenn Grummett, 31, of Rexway Dr., Georgetown.

...
A window was smashed, phone lines

were cut and a JVC portable stereo was stolen from Pineview Public School on Five Sideroad during a break-in sometime Saturday.

Police report a window was smashed to gain entry to the school and the stereo was taken from the library.

Damage and the value of the stolen property combined is \$600.

...
About \$1,500 damage was caused to a Toyota Corolla parked at Georgetown Marketplace Thursday between 9 a.m. and 2:30 p.m.

Miscalculation to cost Halton taxpayers \$2.5M

Water intake at the Burlington Water Purification Plant will cost Halton taxpayers double the estimated cost for expansion.

Based on prices for conducting similar work at other facilities, regional staff estimated that raw water intake construction would cost about \$2.5 million. Results from the tender process show the lowest bid coming in at over \$5 million.

"This is obviously an embarrassing report to bring forward," Director of Engineering Services Bruce Kitchen told members of the Planning and Public Works Committee.

The project used to base the estimate was of a comparable size, but operated on the shore of Lake Simcoe rather than

Lake Ontario as the Burlington project does, he continued.

"Apparently, the low bidder did not feel that Lake Simcoe compares to Lake Ontario," he said.

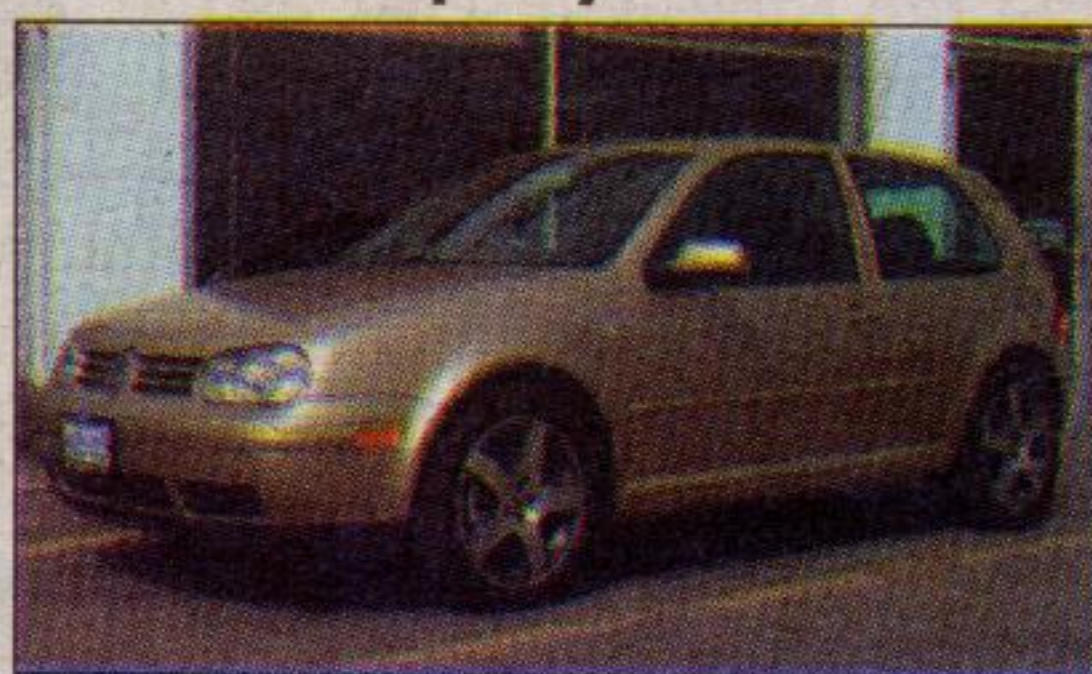

In addition to the differences in lake conditions, the Department of Fisheries and Oceans also restricted the construction period to three months. Five months had originally been planned for. As a result, the work will either take two summer construction periods to complete or construction will occur 24-hours a day.

The low bidder, McNally Construction Inc., have said they will endeavor to complete the work within three months, beginning June 1, 2002.
