CNIB needs volunteers

The Canadian National Institute for the Blind (CNIB) Halton/Peel District is currently seeking volunteers to be friendly visitors or drivers for clients in Acton who are blind or visually impaired.

The time commitment for volunteer visitors is one to two hours per week in the clients' home. The commitment for drivers is occasional when medical appointments arise.

The CNIB also needs office help, must be available in the day. Next training dates Oct 15 & 22 at 1 p.m. and Nov 12 & 19, 6:30 p.m. This is a two-part training. For information Carolann at 905-275-5332 ext. 24.

QUESTIONS & ANSWERS

Q: What is a permanent processed reline?
A: A processed reline is a way of re-basing your denture with the same type of long cure acrylic from which it was originally made. This will make the denture fit more snugly to your ridge.

Q: Will it change the appearance of my teeth?
A: No, it only re-fits the denture to your ridge, no change of tooth position takes place.

Q: What are soft, or cushion, relines?
A: A permanent soft-rubber lining is applied to the lower denture inside ridge. Soft, or cushion, relines are an excellent alternative for those who have sensitive oral tissue and tend to get frequent sore spots. A properly applied soft lining can provide years of comfortable chewing and smiling!

Q: How long will it take?
A: Most relines commenced in the morning are completed and returned to the patient that afternoon.

Q: What if I'm a working person and can't give up my teeth for a day?
A: The alternative is to bring your dentures in after work. It can be relined and returned to you the next morning by 8:30 am.

Relining an existing denture is an excellent economical way to prolong the life of your plate by restoring and maintaining a firm comfortable fit.
