Candlelight creates a warm & peaceful atmosphere. My favourite candles are made out of 100% pure Canadian Beeswax. Beeswax burns completely clean - non-toxic and non-allergenic, unlike candles that contain paraffin wax and can release numerous toxins as you burn them - easily identifiable by black soot. Beeswax is the only fuel known to science that releases Negative Ions as you burn it, proven to eliminate dust, pollen, mould, smoke, food odour, pet dander, as well as air borne germs and bacteria. Beeswax burns much longer and more efficiently than other candles. A tea light will burn 6-10 hrs. They cost a bit more, but definitely worth it. I love the golden flame and the sweet honey scent.
