Dufferin Aggregates receives eight awards

Dufferin Aggregates received a total of eight awards at the annual Convention of the Aggregate Producers Association of Ontario (APAO).

Dufferin Aggregates, a division of St. Lawrence Cement, is a major supplier of construction aggregates in the Greater Toronto Area. Based in Concord, the company operates 14 sites, including four quarries—two located in Halton Hills, six sand and gravel pits and three distribution yards.

Dufferin's Milton Quarry, Acton Quarry and Mill Creek Plant were recognized with Community Relations awards; its Erin Plant, Milton Quarry and Tottenham Plant received Progressive Rehabilitation Awards while its Mosport Plant and Carden Quarry were recognized for Property Enhancement.

Director of the Niagara Escarpment Commission Mark Frawley was a member of the review committee and said in a press release issued by Dufferin, "I am very impressed with the quality of the submissions and the efforts APAO members go through to enhance their properties, be a good neighbour and rehabilitate their sites."

Dufferin has supported many local charities and associations, partnered with local community groups to promote trucking safety and hosted many tours as well as successful open houses.

APAO is a non-profit industry association representing 100 producers of sand, gravel and crushed stone in Ontario, along with 130 suppliers of industry products and services.
