Dion told them how his faith has helped him through difficult times both during and following his hockey career. Dion, who played in the 1982 All-Star Game when he was with the Pittsburgh Penguins, later spoke to teenagers participating in the 30-Hour Famine telling them of his experiences on missions in Africa.

### WORLDS CHEAPEST STRESSBUSTER - A SMILE!

Put on a happy face! An annoying musical adage - or sound medical advice? Score a big grin for science. Research shows that the physical act of smiling - even when you don't feel like it - can measurably reduce stress and improve your mood. Psychologist Paul Ekman of the Human Interaction Lab at the University of California, San Francisco, has discovered that faking a smile produces the same changes in brain activity, respiration, skin temperature, and heart rate as a genuine feel-good smile - and these physical changes promote a sense of well being. Smiling may also boost your mood because it elicits positive responses from people. Faking a smile won't jolt you out of a serious depression, notes Ekman, who has been studying facial expressions for 30 years. But it can lift your mood and help you relax!

Creating confident smiles since 1982.
