CHANGES AND ADJUSTMENTS

It may be necessary from time to time to have changes or adjustments made to your hearing aids or molds.

Your hearing can change slightly; you can gain or lose weight; develop circulation problems; develop an allergy...the list is long.

Hearing Instrument Practitioners will want to see you on a regular basis to ensure you are receiving maximum benefit from your aids. No problem is "too small" to have checked. Your hearing is too precious not to receive the best possible attention.
