Honda: Dependable, Reliable, Affordable

2003 ROLL-OUT

THE ALL-NEW ACCORD DELIVERS MORE!

MORE POWER
All Accords have more powerful engines for 2003. The refined VTEC™ V6 turns out 240-horsepower, a 40-hp increase! The 160-horsepower Accord 4 cylinder engine is now I-VTEC™ (Variable Valve Timing and lift Electronic Control).

MORE ROOM
This newest generation Accord is roomier than ever. There is more personal space, more headroom in the front and rear, more room up front, more storage and more "knee room" for rear passengers.

MORE COMFORT
New driver-oriented features enhance the driving experience. Engine and road noises have been dramatically reduced. The audio system and climate control have been significantly upgraded. Seating is more comfortable.

MORE SAFETY
The new generation Accord has a comprehensive array of safety features including Anti-Lock Braking System (ABS) and dual-stage front airbags.

MORE CONTROL
The new Accord delivers "world class" levels of steering response, cornering, ride and braking to create a more exciting driving experience. Steering has been improved, and a new state-of-the-art traction control system is standard on all V6 Accords.

MORE PERFORMANCE
Born out of Honda's passion for racing, the new aerodynamic body shape improves airflow and helps the Accord hug the road. The new transmissions are smoother than ever and the new unibody design improves handling and stability.

MORE
