Directions - Jim Gill (519)672-5530 x3675.

Drinking and Driving Can Distort Life.

Drink and drive, and your life may never be the same again. You not only risk your life when you drink and drive, you also risk losing your license, incurring expensive fines, doing time in jail or even causing injury or death to an innocent bystander. With all these consequences facing you, driving under the influence is the worst decision you can make. Don't take chances with drinking and driving; there's always a better alternative.

... Lend Me Your Ears

LIVING WITH A LOSS OF HEARING

Some voices are easier to understand than others. The clearly speaking person pronounces words that are more precisely formed, or articulated. The rate of speed of words spoken also effects our ability to understand.

If one can see the speaker as he/she is talking, this makes it easier to understand. The environment also has an effect on speech understanding - bare walls and floors in a room causes sound to "bounce" around. Keep in mind that it is much easier to converse in a quiet carpeted room.

Make sure that there is good lighting and try to maintain a speaking distance of less than nine feet. You'll be pleasantly surprised at how much easier conversation is.

Hearing loss can dampen enjoyment of movies, music, church services, watching TV, eating out, and talking on the telephone. Even a mild hearing loss can reduce your quality of life.
