**It's time for Spring Clean-Up Stop Mosquitoes from Breeding!**

I am sure many people were busy this past weekend starting their annual spring clean-up around the house. It seems timely to direct Halton residents to our Web site at [www.region.halton.on.ca](http://www.region.halton.on.ca) for information about spring clean up and the steps you can take to help in the battle against West Nile Virus (WNV). In addition to personal protection measures, the removal of mosquito breeding sites around your homes and businesses is one of the most important things you can do to minimize the risk of WNV.

If you have anything in your backyard that can collect standing water such as wheelbarrows, tires, planters, kiddie pools or even pool covers, now is the time to remove the debris and water to ensure that mosquitoes do not breed. I encourage all residents to take time to visit our Web site or call our West Nile Virus info line at 905-825-6187 to learn more about what you can do to protect yourself against West Nile Virus.

**Halton Regional Meeting Schedule:**

**Halton Regional Council Wednesday, May 7 9:30 am**
