

## Town buys aquacide machine to kill weeds

The town will buy an hot water weed spraying equipment from G.C. Duke Equipment Ltd. of Burlington for \$18,315. G.C. Duke is the only known supplier of this equipment, which uses super-heated water to eliminate weeds. The hot water essentially scalds the plant and kills it; there is no need for pesticide use. The machine will

be used in public areas such as rural road allowances, interlocking stone walkways in the downtown or under bleachers in parks.

Town council had approved the spending of \$35,000 in the 2003 capital budget for the equipment; the remainder of the cash will be used to buy a trailer to tow the unit.

## CTK student named as student trustee

Christ the King Catholic High School student is one of three new student trustees appointed recently to the Halton Catholic District School Board.

Graeme Owens, a Grade 9 student at the Georgetown high school, will serve as the student trustee for north Halton for the 2003 to 2004 term. Owens, 14, is the youngest person to ever serve as a student trustee with the board.

"I want to accurately voice the students interests and concerns," said Owens, who applied for, and is excited about, the position. He is also looking forward to attending a three-day conference this weekend in Ottawa for Ontario student trustees.

Owens, 14, who is recognized for his strong communications skills, is confident he will represent the interests of north Halton students as a result of well developed leadership skills and knowledge that he has acquired through scouting, volunteering at the Town of Halton Hills summer day camps, playing hockey and soccer and through his attendance at the Peel Summer Academy.

Although he only started at Christ the King

Catholic High School in September, Owens has already been actively involved with the new school community as a member of Connections Conference Steering Committee, the junior boys soccer team, and as the school's representative on the Mayor's Youth Advisory Council.

Before the high school opened Owens, who previously attended St. Francis of Assisi, served on Christ the King's Student Liaison Team, helping to select the school's uniform, school colours and team name.

The two other student trustees appointed to the board are Claire Schiller (Burlington student trustee) of Assumption Secondary School and Michael Yip (Oakville student trustee) of St. Ignatius Loyola Secondary School.

They were welcomed to the board table last Tuesday and replace Kristyna Opletal (north Halton), Jessie Hession (Burlington), and Martina Kumovic (Oakville).

Student trustees have the same rights as trustees to participate in board meetings, however they can't attend in camera sessions and they don't have voting rights.

### How Long Should My Shirt Last?

Your favourite shirt is beginning to show wear around the collar and cuffs. You were sure it would last at least six months. What happened?

Actually, shirts have an average life-expectancy of 35 to 50 washings. Of course, this fluctuates depending on the fiber content of the shirt and the wear and tear placed on the shirt during use.

Some problems caused during manufacturing may contribute to the "demise" of your favourite shirt. What causes the collar or cuffs to become dingy after only a few washings or to have a spotted gray or shiny look in certain areas? Adhesives used to fuse the collar and cuffs may be soil prone, causing graying. Also, too much adhesive may have been used to fuse the collar and cuff and the interfacing. This adhesive can soften with the heat of pressing and show through the fabric, giving certain areas a spotty, gray appearance.

Trust Barrager's to keep your shirts looking their best.
