Church holds Alpha course

The Georgetown Alliance Church will be hosting a morning program of Alpha, a practical introduction to the Christian faith, on Tuesdays, 10 a.m. to 1 p.m. as well as an evening program on Thursdays, 6:30-9:30 p.m. Both programs begin with a Celebration Banquet tomorrow (Thursday), at 6:30 p.m.

The Alpha program, started in Britain by Nicky Gumble, a lawyer turned clergyman,

has grown tremendously since its inception in 1992. Approximately six million people have participated in 140 countries in 44 different languages. While the 12-week course deals with important life issues, no questions are too simple or too hostile.

While dealing with topics such as "What is the meaning of life?", "Does Jesus have any relevance to our lives?", "How do we deal with guilt?", another objective of the program is to foster friendship. Each meeting either begins or ends with a meal, which allows for a time of informal fellowship. The issues raised in each talk are discussed over coffee in small groups. In addition, a special weekend Alpha meeting is held partway through the course.

McRonald, 905-873-0249.

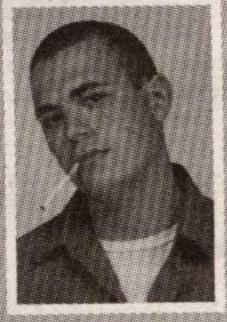

## Drinking and Driving Can Distort Life.

Drink and drive, and your life may never be the same again. You not only risk your life when you drink and drive, you also risk losing your license, incurring expensive fines, doing time in jail or even causing injury or death to an innocent bystander. With all these consequences facing you, driving under the influence is the worst decision you can make. Don't take chances with drinking and driving; there's always a better alternative.

## Cool or Clueless?

Is there really any question?

There's no doubt about it: smoking pollutes your body and takes years off your life. Cigarettes are very addictive, very expensive and very unpleasant for those around you. If you do smoke and have thought about quitting, prove to yourself you can do it. It takes a lot of

hard work and

dedication, but

you can live

smoke-free if

you try.
