# REGIONAL CHAIR (elect two) (continued from pg. 8)

## Brian Burton

Age: Not supplied Occupation: Engineer Previous political experience: Not sup-

plied I am running for regional chairman because I believe Halton is at a crossroad. We can continue to make way for urban sprawl and traffic congestion or we can manage our growth in a way that retains more of Halton's highly-desired quality of life. The chairperson of Halton is in the best position to influence this choice—untrammelled growth or

growth on our terms. Halton's most highly valued attribute is Halton's quality of life. The numeber one issue for the residents of Halton is to maintain that lifestyle while managing

growth and protecting the environment.

I am a professional engineer and I recently sold my steel fabricating company. I have also managed large manufacturing companies in four countries. My most recent community involvement has been as a member of the citizens' advisory committee for the mid-Halton wastewater treatment plant expansion.

Age: 45

Occupation: Computer consultant Previous political experience: Nine years as town councillor

Robert Heaton believes that a more democratic Halton Region can be achieved.

Robert Heaton wants a government that works for you first then the developers.

Robert Heaton wants to continue your rural communities that are prosperous and strong.

Robert Heaton wants to improve the quality of life

in Halton Region and make it better Robert Heaton wants excellence for ALL by achiev-

ing our economic growth potential.

Robert Heaton wants a cleaner and safer communi-

ty that continues to grow stronger. Robert Heaton wants the better health care we

need.

### Anne Marsden

Age: Not supplied Occupation: Not supplied Previous political experience: None

As audit manager with The Canadian Family Watchdog I know money is being spent where it should

not be spent and services are not what they should be, impacting Halton families' best interests. It's time to have someone with the appropriate skill sets administer the region, not a politician.

Ensure you understand who you are voting for at this crucial time for Halton families' futures.

Please ask for any information that you need to cast

an informed vote November 10- iwantu2win2@cogeco.ca

My professional administrative and audit experience was gained in a multi-million organization similar to the region. I am known for my creative use of resources to maximize services and reduce costs without privatizing service.

Vote wisely on Nov. 10 Halton families deserve it.

# Joyce Savoline

Age: 58

Occupation: Regional chair Previous political experience: Nine

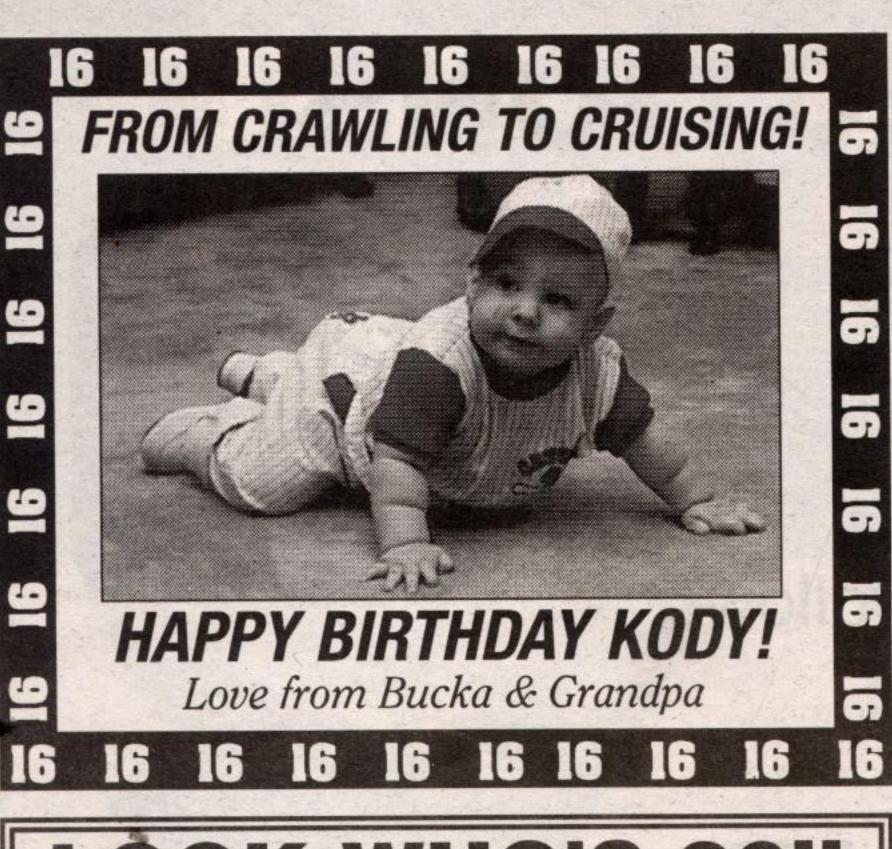

years as regional chair

cation a top priority. I believe in an accessible and transparent government. I believe in accountability. I believe in making the necessary investments in our community and our infrastructure to maintain our quality of life in which the health and safety of our Halton residents is my first priority.

I would like to build on the success we have achieved, which includes the responsible management and investment of our taxpayers' money. This is a strategy which consistently achieves a triple AAA credit rating from Moodys, a credible financial rating agency. I would like to continue our efforts towards environmental protection and preservation of our agricultural heritage. We can achieve a balanced, well managed growth plan through our acclaimed and

I will continue to make communi-

defensible, Halton Urban Structure Plan.

Happy Birthday Marg Davidson (Gibson)

Come help us celebrate on Sunday, Nov. 9th, 2003 2-4 pm 51 Birchway Place (Terrace Room) Acton, Ontario Parking available at Acton Legion, 15 Wright Ave.
