# Isn't it time to Listen to Your Heart?

Do you or someone you know suffer from hearing loss?

**There is Hope.**

The causes of hearing loss are many. Age, exposure to noise, infections, trauma, medication, heredity, or even too much earwax all can impair your ability to understand life's sounds. The good news is that in most cases, you can overcome the debilitating effects of hearing difficulties, and re-discover the sounds and conversations you've been missing.

At The Georgetown Hearing Clinic, we are committed to your individual hearing needs. Find out how we can help.
