

Local woman to receive engineering honour

A local woman is being recognized tonight (Friday) for engineering excellence and community service.

Jennifer Moylan, 33, of Georgetown, will receive the Engineering Medal, Young Engineer award at the Ontario Professional Engineers Awards Gala in Etobicoke tonight (Friday).

The award is given to engineers under the age of 35 who have made exceptional achievements and demonstrated excellence in community and professional participation.

Moylan, a licensed engineer

since 1997, has achieved professional recognition for developing and introducing a new industrial software product called Spotlight TM as the director, product management with Case Bank Technology. The software uses case-based reasoning to identify and solve problems in aircraft maintenance and other complex areas.

In 2000 Moylan also volunteered at Pineview Public School with Grade 3, 4, and 5 students through the Professional Engineers Ontario Engineer in Residence educational outreach program.

Moylan, who has lived in town since 1999, said she was "honoured" to receive the award, particularly as five of her peers selected her.

Moylan has recently joined Husky Injection Molding Systems Ltd. as project manager of automated systems.
