2 MEET THE CREW
 Meet Dave, Bruce, Gord, Carl and Lorenzo who have been keeping your shift in gear since 1988 at the **Trany Shop** at 354 Guelph St., Unit 25. Owner-operator Dave stands behind all the work he and his four-man crew perform on a daily basis. Six-month unlimited mileage warranties are given on all non-commercial overhauls and every vehicle is road-tested and scanned, where applicable, using the latest technology in vehicular diagnostics. Bruce, the Trany Shop's own transmission specialist, is certified in both domestic and import vehicles. Gord is the shop's bench man, rebuilding transmissions from scratch, while Carl removes and re-installs transmissions as needed. All vehicles are completely driveline inspected, including transfer cases on all 4 x 4 as well as front and rear differentials. Towing is always available if you and your car are ever left on the side of the road. To prevent such a catastrophe this winter Dave recommends a fall tune-up or inspection of your transmission to prevent costly repairs. Changing the oil filter and catching any leaks early, or even before they start, can save customers thousands of dollars worth of damage and add kilometres to your odometer.
