

YOU NOW HAVE THE POWER TO BE **GREEN**

Green Power is electricity generated from renewable energy sources and it reduces our reliance on electricity from the harmful burning of fossil fuels.

Oakville Hydro Energy Services Inc. (OHESI) is now offering you an opportunity to partner with us and give the "green light" to the generation of **Green Power** in Ontario.

You and Oakville Hydro Energy Services Inc. can now make a "Green Light Pact" and contribute to the generation of **Green Power**. By making a commitment of \$60.00 a year (plus GST), OHESI will ensure that 660 kWh of **Green Power** is generated and injected into Ontario's electricity grid. That's the equivalent of three weeks of electricity used by a typical home and benefits the environment by reducing greenhouse gas emissions.

Half "Green Light Pacts" are also available at \$30.00 a year (plus GST). You may purchase as many of each or both as you wish. You now have the power to be **green** – to decide that a specific amount of electricity will come from renewable energy sources rather than conventional sources. Anyone in Ontario can participate in the "Green Light Pact" program. You don't have to be a hydro customer.

This "Pact" is in no way connected to your current electricity arrangements, consumption, or payments, and will not result in any changes to your electricity bill.

Your support will help cover the additional costs of producing a bigger share of Ontario's power from renewable energy sources and the building of future facilities.

If you would like to make a "Green Light Pact" or want more information, please complete the form below and mail it to us.

Oakville Hydro Energy Services Inc. is a subsidiary of Oakville Hydro Corporation, and is not your local distribution company. This is a limited time offer that may be withdrawn by OHESI at any time without notice.

Oakville Hydro ENERGY SERVICES Inc.
P.O. Box 1900, 861 Redwood Square
Oakville, Ontario L6J 5E3

For more information, please call 905-825-6370 or e-mail us at green@oakvillehydroenergy.com or visit our website at www.oakvillehydro.com then click on the Energy Services Inc. link

GIVE THE "GREEN LIGHT" TO A CLEANER ENVIRONMENT

I wish to purchase _____ full "Green Light Pacts" from Oakville Hydro Energy Services Inc. and agree to pay \$64.20 (includes GST) for each full Pact purchased.

I wish to purchase _____ half "Green Light Pacts" from Oakville Hydro Energy Services Inc. and agree to pay \$32.10 (includes GST) for each half Pact purchased.
(Oakville Hydro Energy Services Inc. (OHESI) promises to retire all emission credits it receives in relation to the generation of green power and will not sell them to another entity to ensure that the environmental benefits are maintained.)

I wish to receive more information on Oakville Hydro Energy Services Inc.'s "Green Light Pact" Program.
