**DISCOVER YOUR DENTURIST IF YOU WEAR DENTURES**

- Avoid using pads, liners or denture adhesives to improve the fit or your dentures. If they're loose, see your dentist. Your gums, like your eyes, change as you get older. Dentures, like eyeglasses, must be adjusted or changed periodically.
- Avoid using very hot or very cold water on your dentures, and don't let them dry out. Such extremes can cause your denture to warp.
- Remove your dentures overnight and put them in a container filled with water. This won't cause your face to sag! It will give your gums a needed rest. Healthy gums will extend the life of your dentures.
- Have yearly check-ups. Our office does not charge for consultations. If you follow these tips, your dentures will fit, function and look their best.

You do not need a referral - simply call our office direct.
