**PUBLIC INFORMATION CENTRE**

**FERNBROOK HOMES LIMITED**  
Re: Location of  
Regional Sewage Pump Station

**DATE:** Tuesday, October 5th, 2004  
**TIME:** 6:00 p.m. - 8:00 p.m.  
**PLACE:** Town of Halton Hills Civic Centre  
1 Halton Hills Drive  
Halton Hills

Fernbrook Homes wishes to locate a Sewage Pump Station on Town owned lands located in Georgetown South in order to accommodate servicing requirements for the development of the Georgetown South area between Mountainview Road and the Eighth Line (Main Street), north of Regional Road 10 (Ten Side Road). To facilitate this connection, Fernbrook Homes has approached the Town with a request to locate a Regional Sewage Pump Station on Town-owned open space land.

The proposed pump station will be owned and operated by the Region of Halton and will accommodate needs for both residential development planned for the area, the Gellert Community Centre and a future Public Secondary School site. There are no environmental constraints on this area of the Town open space system.

This Public Information Centre will provide you with an opportunity to review the project drawings and to discuss the proposed works with representatives from the Regional Municipality of Halton, Sernas Associates, the Project Consulting Engineer and the Town of Halton Hills.

Interested persons are invited to drop in any time during the above-noted hours to review and comment on the proposed works. If you are unable to attend this Public Information Centre and wish to obtain additional information or provide written comments, please address your concerns to:

**CLEANING YOUR DENTURES**

Keeping your dentures clean is the most important patient responsibility in good oral health. Dentures, like natural teeth, attract plaque, become stained and collect food particles that can cause bad breath. The two best methods of cleaning dentures are brushing and soaking.

**SOAKING**

Soaking your dentures every night with an effervescent tablet will effectively cleanse away food particles from crevices and spaces between the teeth. It will remove plaque and odour-causing film, and eliminate virtually all micro-organisms.

**BRUSHING**

The most effective cleansing method is brushing with a special denture brush and paste. Use a special denture paste, as regular toothpaste may be too abrasive, and can damage the acrylic surface of your dentures. Brushing daily will maintain the bright natural appearance, as well as leaving your mouth feeling fresh. Brushing is recommended for removal of plaque. The best cleaning method is to combine both brushing and soaking.

We can clean your dentures professionally for stubborn stains and build up. Also, "Lavdent denture Cleanser" is available through our office, and is the next best thing to Professional denture cleaning.

You do not need a referral; simply call our office direct.

**Town steps up marketing plan for 401-407 Gateway Business Park**

With businesses expected to be able to hook up to the "Big Pipe" along Steeles Ave. this fall, the Town of Halton Hills has stepped up its marketing efforts for the 401-407 Gateway.

The business park (or at least a portion of it) is ready to go—servicing is in and the pumping station to make it operational should be done in November, the lands are zoned, development charges have been finalized, and major industrial developers have purchased some of the lands in the corridor.

"We have aggressively put all the pieces in place to make the 401-407 Gateway Business Park an attractive place for industry to locate," said Halton Hills Mayor Rick Bonnette. "Now we are going to market it just as aggressively."

"We want businesses to come here and believe me with what we have to offer, it will. We have the location and we have the right attitude," said Bonnette.

The Town's marketing campaign for the corridor will include a direct mail campaign to real estate professionals in the GTA, developers and design/build companies, as well as one-on-one calls to high profile real estate professionals and development company executives.

The Town also plans to advertise in economic development publications, host information seminars for real estate professionals and send information packages to the media.

The business park located between Steeles Ave. (south side) and Hwy. 401 from

James Snow Parkway through Winston Churchill Blvd., encompasses approximately 1,000 acres.

The Town's economic development officer Allan O'Neill said there are approximately 300 acres in the first phase—from James Snow Parkway to Fifth Line South—to be serviced by November.

O'Neill said negotiations are ongoing between the Town and other landowners including Mold-Masters to extend the servicing to Trafalgar Rd., approximately an additional 350 acres.

"It seems the discussions are very positive," said O'Neill.

If all goes well, O'Neill said servicing could be to Trafalgar Rd. by early 2006.

He said First Gulf Developments has acquired approximately 40 acres on the north side of Steeles Ave. west of Fifth Line, and Hopewell Developments has purchased approximately 62 acres on the south side of Steeles Ave. west of Sixth Line with exposure on Hwy. 401. Mold-Masters owns a large parcel of land on the west side of Trafalgar Rd. with exposure on the 401.

O'Neill said, "the level of inquiry (about the gateway) is really, really high."

"For the first time since I've been in the position we actually have one of the best products in the marketplace," said O'Neill.

For information on the 401-407 Gateway Business Park call the Town's Economic Development Office at 905-873-2601, ext. 2343 (O'Neill), 2345 (Daphne Millar), or Mayor Bonnette at ext. 2342.

**Acton man charged**

An Acton man is facing charges in connection with incidents involving another Acton man at his home that occurred between Thursday and Sunday. Police report the suspect threatened, harassed and grabbed and pushed a man. He was not injured. Charged with criminal harassment and assault is Brad Carter, 26, of Main St. N.

**Youths sought**

Police are looking for two male youths after a break and enter into a Weber Dr. home Thursday. Police report at approximately 9:20 a.m. the homeowner saw two male youths knocking on his door, but did not answer. He said after several minutes one of the youths entered the home, the homeowner yelled at him, and the two fled on foot towards Delrex Blvd. They are both described as white, possibly teens. One is described as 5'5" to 6' tall, he was wearing a base-

**POLICE BLOTTER**

ball cap and carrying a black backpack. The other male was approximately 4'9" to 5'5" tall.

**Post office vandalized**

Police report \$500 damage was caused at Acton Post office on Bower Ave. when something was thrown at a door and window.

**Police investigating**

Police are investigating an assault in the McNabb and Mill St. area last Friday (September 17) at 3:30 p.m. Police report a young female was walking home from school and after going through the underpass, she heard a male voice, then was hit on the face and fell down. The suspect fled. No description was available.

You are invited to our...
