## Guide to the Outdoors

Julie Pomeroy

Sunday, October 3 is ONTARIO HIKING DAY. So get out there and take advantage of this spectacular fall weather. Don't forget to take water. Hikers love their Nalgene bottles. Why? commercial water bottles are made with plastic designed for one use only. They are hard to clean, bacteria can grow quickly and some studies show that with a lot of use unhealthy compounds, including some that are carcinogenic, may leach into the water from the plastic. Nalgene are made from a more durable plastic and are designed to be used over and over. They are resistant to staining, resistant to retaining odours and can be cleaned in the dishwasher. We have lots of cool colours to choose from.
