CPI is a high-tech electronics company that designs and manufactures a diverse range of products that include x-ray generators for diagnostic medical imaging, microwave vacuum amplifiers, and satellite communications transmitters/amplifiers for uplinking signals to satellites for telephone, television, Internet, and data transmission. As a result of our continued growth, we are looking for top talent to add to our finance team.

Assistant Controller

In this highly visible role, you will report to the controller providing support to our microwave operation including the analysis and reporting of financial results, preparation of financial information, and maintaining the cost system for microwave manufacturing. Your duties will be expanded to include assisting the controller in supporting our two divisions. A self-starter with excellent PC and communication/problem-solving skills, you have the ability to motivate and manage staff, are comfortable making presentations, and are able to take a leadership role in a team environment. You have three to five years' manufacturing experience coupled with a CMA, CA or CGA designation.

In exchange for your talents, we offer a competitive package that includes a comprehensive range of benefits, a friendly work environment with an in-house fitness facility, and the opportunity to apply your skills with an industry leader. We value all applicants; however, only those selected for interviews will be contacted. Please apply to:
