## Safe Gifts are Divine

As you shop for the youngest names on your list, keep in mind that many toys can become potential safety hazards to children. Here are a few important guidelines to help you select the best gifts:

Choose age-appropriate toys. Many toys have labels with age recommendations on them.

Avoid toys with sharp edges and points or small parts. Also avoid toys that fly, shoot projectiles or produce loud noises.

Look for toys that are durable, well-constructed and easy to clean.

When choosing a fabric toy, make sure it is labeled flame-retardant or nonflammable.

Check stuffed toys for secure stitching of eyes and other small parts.

## Where Child Abuse Hurts Most

Sometimes the worst scars of child abuse can't be seen. Whether physical or emotional, abuse attacks a child's self-esteem and emotional development, leaving long-term emotional trauma and pain. You can help prevent child abuse by being a nurturing parent or caregiver. By letting children know they are special, competent and loved, you can help them develop positive self-images and happier futures.

If you feel overwhelmed, angry or frustrated as a parent, help is out there for you. Look in your area for support groups and services, or talk to a trusted friend, family member, pastor or doctor about what you can do to protect and support your child. If we all do our part to prevent child abuse, we'll get to the heart of the matter.
