

HEY!

HOW 'BOUT THIS WEATHER HOW 'BOUT THOSE RAIDERS. HOW 'BOUT OUR PRODUCT LINEUP.

Life is good in Halton Hills. We need more doctors in Acton but I know there's a committee loaded with talented, dedicated team players that will make it happen.

Speaking of making it happen. Georgetown Chrysler Jeep's philosophy of selling vehicles to local residents for less than anywhere in North America is working exceptionally well. Our main challenge is this: We are not particularly fond of buying "Auction" cars or importing them from "Out of Town". Many "Auction" vehicles are deemed "Unsuitable for Resale" by the new car dealers who took them in as a trade-in!

Do you want to risk acquiring a used vehicle with an unknown history, 5 previous owners, etc. Neither do I!

Georgetown Chrysler Jeep's dilemma is this. The Canadians I've met are sharper than Americans. We have a tendency to maintain and keep our cars a little longer. Subsequently, we don't usually keep trade-ins older than 5 years old.

Sooooooooooooo, if you've got a good 5 year old or under trade-in, **I WANT IT.**

10 years old, 200,000 km, we'll take it but won't keep it.
5 or under **WE'VE GOT A DEAL!** Sound different? Come see.
Our new sales leadership team want your business.
