'All proceeds to support
 Mitochondrial Research'

SickKids
 FOUNDATION

"MITO MARCH" KURE FOR

Mitochondrial disease is a rare metabolic disorder resulting in an energy crisis of the body attacking one or all of these systems: brain, nerves, muscles, kidneys, heart, liver, eyes, ears, pancreas, or autonomic system

- 5000 Canadians are affected.
- There is no cure! 'Mito' disease is fatal!*
- Mitochondrial disease is low profile and often unrecognizable therefore, metabolic research of this type is typically under-funded.
- The Metabolism Research team at the Hospital for Sick Children offers hope to children like 4-year old, Kirkland Kilbride.
- Please support Kirkland's cause by creating awareness in hopes of finding a cure! Let there be a purpose to his journey!

Visit Kirkland at: <http://www.caringbridge.org/canada/kirkland/>
