

Tickets are on sale now for United Way's President's Ball

The United Way of Halton Hills is hosting its annual President's Ball on Saturday, Sept. 17 at North Halton Golf and Country Club. The reception begins at 6:30 p.m. followed by fine dining, music, dancing, and a silent auction. Limited tickets are available at \$70 each by contacting the United

Way, 905-877-3066 or unitedwayhh@bell-net.ca. Funds raised from this event will help the United Way's continued support of 16 local agencies such as Halton Hills Community Support & Information, North Halton Distress Centre, Community Living North Halton, Big

Brothers Big Sisters of Halton, Canadian Mental Health Association, CNIB, VON, etc., that provide much needed social services to those less fortunate in our community. All United Ways operate independently and the money raised by the United Way of Halton Hills stays in Halton Hills.

NOTICE OF STUDY COMMENCEMENT

Steeles Avenue (Regional Road 8) Transportation Corridor Improvements James Snow Parkway (Regional Road 4) to 250 metres West of Trafalgar Road (Regional Road 3), Town of Halton Hills

Class Environmental Assessment Study

The Regional Municipality of Halton is initiating a Class Environmental Assessment to consider a wide range of options for transportation corridor improvements to satisfy future travel demands on Steeles Avenue (Regional Road 8) from James Snow Parkway (Regional Road 4) to 250 metres west of Trafalgar Road (Regional Road 3), in the Town of Halton Hills (see map below). In order to best address operational deficiencies and the need for additional capacity along the Steeles Avenue corridor, a number of road improvement alternatives will be examined as part of the study including widening of the roadway, cross-sectional elements, intersection improvements, overall traffic operations, as well as the impact of such improvements on the social and natural environments.

This notice signals the commencement of the Class Environmental Assessment, a study which will define the problem, identify and evaluate alternative solutions, and determine a preferred solution in consultation with the Town of Halton Hills, regulatory agencies, and the public. The study is being conducted in compliance with Schedule C of the Municipal Class Environmental Assessment (June 2000), which is approved under the Ontario Environmental Assessment Act.

A key component of the study will be consultation with interested stakeholders (public and regulatory agencies) at two Public Information Centres (PIC). The PICs will provide stakeholders with an opportunity to meet the Project Team, review the study scope and discuss issues related to the project including alternative solutions, environmental considerations and evaluation criteria. The first public meeting will be held in November 2005. Details regarding the forthcoming PICs will be advertised as the study progresses.
