Where  
Child  
Abuse  
Hurts Most

Sometimes the worst scars of child abuse can't be seen. Whether physical or emotional, abuse attacks a child's self-esteem and emotional development, leaving long-term emotional trauma and pain. You can help prevent child abuse by being a nurturing parent or caregiver. By letting children know they are special, competent and loved, you can help them develop positive self-images and happier futures.

If you feel overwhelmed, angry or frustrated as a parent, help is out there for you. Look in your area for support groups and services, or talk to a trusted friend, family member, pastor or doctor about what you can do to protect and support your child. If we all do our part to prevent child abuse, we'll get to the heart of the matter.

SMOKING  
is it worth it?

Someday, you'll be offered a cigarette or be tempted to smoke. Before you start, think about it: every drag you take screws up your body.

Smoking can cause permanent damage to your body. Once a person starts, it becomes extremely tough to quit.

And did we mention all that cash you'll be blowing in the process?

So, if you're tempted to start, ask yourself, "Is it worth it?"
