Tooth Chatter

by
**ALEX
TRENTON
DENTURIST**

"HAD A FALLING OUT?"

If a tooth is lost it's important to replace it with an artificial one to prevent your other teeth from drifting out of line. These neighboring teeth can become more susceptible to decay and gum disease. Tooth misalignment can also cause jaw problems.

These are four main types of artificial teeth. Each is designed to solve a specific problem.

*A removable partial denture

*Complete or full dentures

*Dental implants

*A fixed partial denture or fixed bridge

Be sure to carefully consider which dental prosthesis is right for you. You do not need a referral; simply call our office direct.

Consultations are always free. If you have any questions regarding your dentures, give our office a call.

You do not need a referral - simply call our office direct.

Creating confident smiles since 1982.

Library materials can offer insight on war

Remembrance Day is just around the corner. For those of us who have never seen military service or know people who have, it can be very hard to get a real appreciation for the true tragedy of war. We need to rely on the stories of those who were there, and the historians who studied the events.

Here at the Halton Hills Public Library we continue build a collection of resources to help us all understand and remember the struggles people went through to preserve our freedom and way of life. Below is a very small sampling of some of our DVDs about the Second World War.

Alain Resnais' *Night of Fog* is a documentary that was made just 10 years after the end of the Second World War. It is a haunting reflection of the horrors of the holocaust composed of shots of the abandoned concentration camps, juxtaposed against harrowing wartime footage. Resnais' message is very

Clare Hanman

much one of how "those who do not learn from history are doomed to repeat it".

The World at War is an 11-DVD series narrated by Laurence Olivier. It is probably the most complete visual history of Second World War ever produced. Originally aired as a 26-episode television series, it includes hours of newsreel footage including some rare colour film. All sides are examined in this documentary including the lives of soldiers, civilians, prisoners, and children; Hitler's rise to power; the war in Japan; the

nuclear bomb; Normandy and Dunkirk; the war in the air over North Africa and Britain; and many other events, people and politics.

Downfall is a German film, recently released on DVD. This film, produced by Bernd Eichinger was nominated for an Academy Award and was showcased by numerous film festivals, including Toronto's. While the story itself is fictitious, it strives to give historically accurate insight into the disintegration of the Third Reich and the decline of Hitler.

These are only three of the over 1,000 books, videos, DVDs and other resources relating to war and Remembrance Day that are available for you to borrow from the Halton Hills Public Library. For more information please visit our on-line catalogue at www.library.hhpl.on.ca or contact either branch at 905-873-2681 or 519-853-0301.

Clare Hanman is a circulation supervisor at the Halton Hills Public Library.
