PROFESSIONAL REALTY INC.

DI LORENZO - A FAMILY TRADITION, creators of "LE MONACO" have earned an International reputation for developing, designing and constructing projects of superior quality and aesthetic excellence. Achievements include over 2000 residential suites in Canada and the United States. Their impressive construction and development portfolios have enriched the Skylines of Manhattan and downtown Toronto for over 50 years.

Now the Di Lorenzo Family brings to Halton Hills, "Le Monaco", an exclusive 56 suite enclave overlooking the valley lands of the Credit and Black Creek Rivers.

Inherent in this objective are the desires of the client and the municipality to produce a building character with the correct image, so that it will not only benefit the purchasers, but also the existing community. We proudly present "Le Monaco", located on one of the last great sites in Georgetown. Located on Hall Road, nestled among the tall pines, boarding Black Creek and the Credit Rivers.
