... Lend Me Your Ears

By Cory Soal R.H.A.D.

IS IT TIME FOR A HEARING AID?

If you feel as if you are missing out - on conversations, movies, plays or public meetings - or if your loved ones are getting tired of constantly repeating themselves, it's time to get your hearing tested.

And if your vanity has you balking at the idea of wearing a hearing aid, you should know that they're smaller and better than ever, thanks to technological developments such as digitization and background noise filtering. More importantly, while hearing aids are still considered a "device" they have significantly improved the quality of life for many users.

Not only do more than 50 per cent of senior citizens need at least one hearing aid, so do many other Canadians. These include younger adults exposed to long-term damaging noise, children who are "higher risk" at birth and people of all ages whose hearing is affected by injury or disease, such as meningitis.

The Georgetown **HEARING CLINIC**
 We care about your hearing!
 Professional Arts Building
 99 Sinclair Ave., Suite 210
 Georgetown
