Be part of a new frontier in youth services!

In its quest to be a leader in youth services, Transitions For Youth (TFY) delivers innovative residential and community programs for children, youth, and young adults. TFY offers a range of prevention, early intervention, and residential programs in the Halton region, with the focus of building on strengths in creating brighter futures.

Call for Board Members

Providing a range of services to children, youth, and families in Halton including prevention and early intervention programs in the schools and the community, youth justice services in the courts and community, two residential facilities, and support for homeless youth, TFY has a budget of almost \$4 million and over 100 dedicated staff. Last year TFY provided service to over 11,000 children, youth, and families from across Halton Region.

The TFY Board of Directors uses a governance model to guide its activities. Due to the regular Board rotation, four new Board members are required as of June 2006. The Board is looking for community minded individuals who are representative of the diverse cultural groups in Halton and are living or working in Halton Hills, Milton, Oakville or Burlington.

... Lend Me Your Ears

By Cory Soal R.H.A.D.

LOSS OF HEARING DUE TO NON-AGING FACTORS

Hearing loss due to aging can be compounded by other things. A few of these include noise exposure, disease, and ear infections.

Hearing loss due to age and noise are cumulative. That is, hearing loss from noise exposure will be added on to hearing loss due to aging. Neither are not medically correctable. There is something to be said for protecting the hearing that we have left by wearing hearing protectors when exposed to noisy environments.

Each of us reacts differently to hearing loss. We may totally or partially deny that a problem exists. Typical "denial" statements are "you're mumbling again", or "I was not paying attention", and can be a way of concealing hearing difficulties.
