### THE "TRY-IN" APPOINTMENT

The "Try-In" appointment is the most interesting stage of denture construction. This is when you get to see exactly what your denture will look like before it's finished. Because the teeth are set in wax, the teeth can be moved or changed to the desired appearance. Some people bring along a close friend or spouse for a second opinion. Only when you are happy with the appearance will the denture be finished. Because this is such an important stage, sometimes a second "Try-in" visit is necessary, if changes are to be made.

Because we make everything from start to finish in our own dental lab, located right on the premises, special attention is given to the types of teeth used, as well as the specific colour and shape that is exactly right for you. The result is a custom-cosmetic denture that we can both be proud of!

You do not need a referral; simply call out office direct.
