There are so many great changes to tell you about on the new Camry, we don't even know where to begin. Is it the unprecedented list of standard features that now accompany the Camry LE on every excursion? Or is it that every Camry now comes with seven airbags including front seat, side, side curtain and a brand new driver's knee airbag to maximize safety on every trip? Then again, we could brag that in addition to a 158 horsepower 4-cylinder engine, and an optional 268 horsepower V6 engine, the Camry will soon be available with our world-friendly gasoline/electric Hybrid Synergy Drive engine. Of course you can still improve perfection with opulent accessories like headrest DVD screens to amuse the kids on road-trips. Redesigned from top to bottom, the new Camry puts other cars in their place. It puts us in our place. And ultimately, it keeps the top spot for itself.
