

# Hawkeye

At 6 o'clock Friday night, or 1:00 pm Saturday afternoon, head on over to the stage in front of TD Canada Trust and witness Hawkeye's Dan Frankian in action. You'll be able to see a hawk up close and watch a flying demonstration.

Hawks are predatory birds that hunt by day. They have hooked beaks, taloned feet and amazing eyesight. Hawks even have the best eyesight out of all the animal kingdom! They can see much farther than humans, and their ability to see clearly is 8 times our ability. Hawks are also very fast flyers, and when they are diving they can reach speeds of up to 150 miles per hour (way faster than a car!).

Be sure to bring a camera, as there will be photo opts with this magnificent bird and Frankian if timing permits.

Hawkeye is the home to many orphaned and injured birds of prey. There, Frankian rehabilitates them and prepares them for release. For more information about Hawkeye please visit [www.hawkeye.ca](http://www.hawkeye.ca)
