Idol mania in Acton

The Acton BIA will once again be the hosts of Acton's Second Annual Acton Idol Contest, which begins on Canada Day.

Idol auditions will be held at the pavilion at Prospect Park on Canada Day, Saturday, July 1. Five finalists will be picked by contest judges, and will then perform a song of their choice on the main stage at the Leathertown Festival, on Sunday, August 13, starting at 3:30 p.m.

The Acton Idol Contest winner will be given the opportunity to perform on stage at the Leathertown Festival with chart-topping country singer Alysha Brooke. He or she will also win some cool prizes from downtown Acton merchants.

The contest is open to anyone, aged 10 to 19 years of age. Contestants need not reside in Acton but must commit to both events should they be picked as a finalist. The first 20 to 25 applicants will be invited to audition at the Canada Day Concert in the Park at Prospect Park. To apply call the Acton BIA office at 519-853-9555 or e-mail actonbia@aztec-net.com stating your name, age, address and phone number.

Come and celebrate Canada Day in Prospect Park. Concerts in the Park starts at 6 p.m. Alysha Brooke will be performing some of her great country and western tunes along with Jamie Thorne. Yuk Yuks' Jeff McEnery will also provide some great stand-up comedy as well as be the Master of Ceremonies for the Acton Idol Contest.

The night winds up with a fantastic display of fireworks presented by the Acton Firefighters Association; donations are accepted at the gate.

For more information contact the Acton BIA office at 519-853-9555.

Songwriters to perform at Canada Day in the Glen

Tomorrow's stars are playing a free outdoor concert all afternoon on Canada Day at the Gazebo Main Stage. Sit on the grass and enjoy some of the best music around— free of charge!

The musicians playing are seasoned veterans of the Southern Ontario music scene offering a tremendous range of song styles and sensibilities.

Keith Thompson, a singer-songwriter opens the show at approximately 1:30 p.m. He has performed with and opened for a wide range of bands and performers, showing his versatility as an entertainer. Thompson started his solo career in 1992 and has performed steadily ever since. His first CD was released in 2001.

Marianne Girard has written hundreds of songs, including the Ceremonial Song for the United Nations Peace Conference in '92.

By 18 she was playing guitar, and by 21 she was in Nashville, where her voyage as a writer began in earnest.

She stayed for one year, then toured through North America and parts of Europe, at festivals and clubs.

Other performers during the day will be Leslie Clendening, Lonnie Glass and Kent McMillan.

Shakespeare play opens in outdoor theatre

Brampton's new Flower City Theatre Festival opens with an interactive version of the Shakespeare's comedy *Much Ado About Nothing*, directed by A.C.T. Productions Artistic Director Scott Lale. This hilarious tale of love, matchmaking and believing what you hear runs for three weeks, from June 23 to July 10, every Friday through Monday evening at 7:30 p.m. in Ken Whillans Square.

This outdoor facility is located on the north west corner of Wellington and Main Street South, beside Brampton City Hall. Admission is pay-what-you can. Patrons bring their own chairs and blankets.

Tooth Chatter

TYPES OF TEETH, PORCELAIN OR PLASTIC?

Most teeth used to make dentures are made of either acrylic(plastic) or porcelain. Years ago, porcelain had advantages over acrylic. However, acrylic has been significantly improved over the past few years. Acrylic teeth resist wear to a greater degree and have become much more attractive and natural looking. Both types of teeth are used for different reasons.

PORCELAIN TEETH

Porcelain is much harder than acrylic, however it is brittle like glass and tends to chip or fracture if dropped or overstressed by constant biting. Many people who have porcelain dentures complain of clicking sounds whenever the teeth meet. Porcelain teeth should be used when a patient has jaw joint problems such as TMJ (temporomandibular joint dysfunction). In these cases, it is important that a consistent bite is maintained with the least amount of wear deviation. Years ago porcelain teeth used to look much more natural. However, today acrylic's have come a long way, and it is very difficult to tell the difference between the two.

PLASTIC TEETH

Although porcelain is harder than plastic, the fact that acrylic may wear down a little sooner can be a distinct advantage. This wearing action may ultimately result in better preservation of the tissue and bone. Since porcelain teeth resist wear they do not absorb chewing stresses which may eventually traumatize the tissue and shrink the supporting bone structure. Acrylic teeth are the best choice where a denture meets with nature teeth, because porcelain teeth are much stronger than natural dentition. Acrylic teeth can be ground and reshaped allowing greater variation in tooth placement and design.
