## BACK TALK

By Dr. Gabor Madarasz

There we were last weekend! Against the beautiful mountains of Georgian Bay, my son and I, paddling our kayaks along the shoreline as the sun was slowly getting lower and lower. "Dad, I always thought that you were the specialist." "Pardon Nathan" I asked looking over my right shoulder. "You know dad, people come to see you because they've usually tried almost everything and then you help them, *you're* the specialist." "Well I think you're right about that, most people usually have tried many things before they come to see a chiropractor. Why are you asking?" "Well I saw this advertisement for a chiropractor in the paper and it said that if they didn't get quick relief he would send them to a specialist!" "Nathan, you are hilarious. Here we are in Georgian Bay and your asking me these questions." "Well dad it really bothered me when I read that!" "You know Nathan, your not the only one to think we're specialists. I've had patients say "You are the specialist doc!" "And what's with this quick relief stuff dad? I always thought that people ignored their problem for so long that it would take a while to get them better." "Nathan, I always thought you'd make a great chiropractor." "Forget it dad, I don't want to work that hard!" "Come on son, keep paddling!"
