## Local teen becomes North American champion

Erinn Brown, of The McGinley School of Irish Dance, competed in the North American Minor Cup held in Milwaukee, Wisconsin and came home as the Under 13 champion.

Erinn, 13, traveled with her teacher Roisin McGinley to this prestigious competition, after qualifying to compete there.

"It was an extremely difficult as only the best of the best were there," said Clair McGinley-Faloon, co-owner of the school. "The competitors danced three rounds and Erinn was awarded the highest overall result— making her the winner of the North American Minor Champion title."

"I was so excited when I walked up to the front of the stage, I couldn't believe it!" said Erinn. "Then when the award was presented to me I felt very proud and honored to have won the minor cup. After I walked off the stage I also felt really good about achieving this goal and I was excited to see that I was the first Canadian to win this cup."

Erinn has also won her regional Oireachtas, placed as high as seventh and 14th at the Worlds, both times being the top Canadian and has placed 11th at the All Irelands. Erinn continues to be the top Canadian in North America for her age group three years running.

The McGinley School of Irish Dance is a well established Irish dance school, under the direction of two sisters. Clair McGinley-Faloon has been involved in the Irish dance community for the past 30 years and is a fully eradicated teacher and adjudicator qualified by the Irish Dance Commission in Dublin, Ireland. Roisin McGinley an Eastern Canadian Champion, with National,

All-Ireland and World Champion placings. Roisin was the only female dancer from eastern Canada to ever tour world-wide with Michael Flatley's Lord of the Dance. Roisin is a certified teacher with the Irish Dance Commission in Dublin, Ireland.

The dancers of the academy compete and hold many local, national and international titles. This year at the World Championships, held in Belfast, Northern Ireland, the Academy brought home two world medals.

This summer the dancers also competed in The North American Irish Dance Championships (Nationals) held in San Diego, California where the dancers placed extremely high: top Canadians placed in three age cate-

gories. This competition also qualifies them to represent Canada in the World Championships of Irish Dance, to be held next Easter in Glasgow, Scotland.

The academy is accepting new students for the fall program. For information regarding classes in Georgetown, Brampton, Norval and Milton please call 905-873-4153 or e-mail: mcginleygirls@sympatico.ca or visit the website: www.mcginleyacademy.com.

**DON'T GAMBLE WITH YOUR LIFE**

Shooting drugs is no different than shooting dice: you'll be on a roll for a while, but one time is all it takes to end the game. Drug addiction can happen quickly and be hard to beat. So, why play games with your health and well-being? It's not a gamble worth taking.

**LET'S THANK SCIENCE FOR TODAY'S TEETH**

Over the centuries that man has made artificial teeth, many materials have been used in fabrication. These include have bone, ivory, human teeth, wood, gold, silver, porcelain, vulcanite and variety of plastics. Some materials could only be carved to shape. Others were crude fitting casting to which strips of whale bone or springs were attached in an effort to hold them in place. The most famous set of dentures of this latter type were worn by George Washington.

**VULCANITE**

When Charles Goodyear invented vulcanite in the 1840's it was a great step forward in obtaining a degree of fit not before possible. In decades past, dentures wearers have had to persevere with denture bases and teeth of a very simple nature. But science's ever increasing control over the elements involved in denture construction, the art has not only become more precise and durable but has also been allowed to broaden its scope and imagination.

**COMPLEXIONS AND PERSONALITIES**

Through the advances of science the expanding technology of denture manufacturers is practically boundless. With stable base materials available, the tooth manufacturers have concentrated on creating porcelain and plastic teeth to match not only every complexion but every personality too. From the active and outgoing male to the soft and delicate female, every type of personality has been considered and incorporated into the individual plastic and porcelain teeth available to Canadians today. It is now possible for denture specialists to construct a finer and more uniquely personal product than ever before. Remember, consultations are always free.
