For the month of October, a special LHIN Board meeting will be held on **Thursday, October 19**, from 6:00 p.m. to 7:00 p.m., in our corporate offices, to approve the proposed Integrated Health Service Plan for the Mississauga Halton LHIN communities. This meeting is the conclusion of a public engagement process that began in May and that has involved thousands of residents and hundreds of health care providers in each of our six local municipalities. The Board wishes to thank all of those who have accepted our invitation to become involved and who have taken the opportunity to participate. Our first Integrated Health Service Plan will be a product of those valuable and extensive consultations.

While the public is welcome to attend and to observe the public deliberations of the Mississauga Halton LHIN Board and its committees, we would ask you to contact us in advance, in order to arrange for after-hours admission to our offices by building security staff. Our phone number for registration is 905-337-7131, ext. 207, in Oakville.

## **SAFETY NOTICE to fuel oil consumers without a Comprehensive Safety Inspection**

**The Canadian Oil Heat Association (COHA) in conjunction with the Technical Standards and Safety Authority (TSSA), the regulatory agency responsible for fuels safety in Ontario, including furnace oil distributors, wishes to inform all fuel oil consumers of the following:**

Ontario regulation 213/01, passed in June 2001, requires that all fuel oil (including furnace oil) consumers have a safety inspection of their oil systems by certain deadlines. **Failure to comply will legally require that distributors terminate the fuel oil supply to any premise until a comprehensive inspection of all oil-related equipment has been completed.**

This safety inspection verifies that the operational condition and installation of your oil system complies with national safety standards and codes put in place to maintain the safety of you and your family.

To ensure continued oil delivery and safe use of your oil equipment, the COHA and TSSA request that you provide your distributor the opportunity to inspect your system. **Furnace oil consumers that have not had a comprehensive inspection completed should immediately contact their fuel oil supplier to arrange for this important safety inspection.**

For more information, contact the Canadian Oil Heat Association at 1•800•257•1593 or visit the website at [www.coha.ca](http://www.coha.ca). For more information on fuel safety visit TSSA's website at [www.TSSA.org](http://www.TSSA.org)
