Innerscapes artists in special show

Two members of Innerscapes, a local artists group, have been selected to participate in the McMichael Canadian Gallery Volunteer Committee's annual Autumn Art Sale.

Herta Hajek's and Jan Zimmerman's work will be on view at the McMichael Gallery located at 10365 Islington Ave. in Kleinburg, Oct. 20-22.

The opening night celebration with complementary refreshments, parking and admission will be held on Friday, Oct. 20, 6-10 p.m. Weekend sale hours are 10 a.m. to 4 p.m.

Proceeds support children's programming.

Some other locally-based artists participating include Eileen Millen.

Beatrice Dumbreck works on a piece during the Innerscapes artists exhibit of Kaleidoscope at their gallery recently.

Tooth Chatter
 by **ALEX TRENTON DENTURIST**
STAGES OF DENTURE CONSTRUCTION
 1. "IMPRESSION": A mold is taken of your gums. A plaster/stone model is then poured. The exact replica of your mouth will enable us to build you a precision-fitting denture.
 2. "BITE BLOCKS": The bite establishes the correct position your jaw should be in when they come together. A wax bite block is used to establish this position. Other points of anatomical interest will be marked on the block at this time.
 3. "TRY IN": Type of teeth are selected, and they are actually set up with wax in a plastic denture. This enables us to move teeth around and change them, until we have achieved the desired look and function. Only when you are happy with the look do we begin the long involved process of fabrication and the finished product.
 4. "INSERT": Today is the day you have been waiting for, the day you get your new dentures. We will insert you dentures, and make any necessary adjustments. You will then be informed of the best methods for good oral hygiene and denture care.
 5. ADJUSTMENT: New Dentures can take up to a month or even longer to settle into your tissue. You will probably experience tender sore spots during this period. Be patient! If you get sore spots, give our office a call. That's what were here for!
 You do not need a referral; simply call our office direct.

... Lend Me Your Ears
 By Cory Soal R.H.A.D.
CHANGES AND ADJUSTMENTS
 It may be necessary from time to time to have changes or adjustments made to your hearing aids or molds. Your hearing can change slightly; you can gain or lose weight; develop circulation problems; develop an allergy...the list is long. Hearing Instrument Practitioners will want to see you on a regular basis to ensure you are receiving maximum benefit from your aids. No problem is "too small" to have checked. Your hearing is too precious not to receive the best possible attention.

Creating confident smiles since 1982.
