## NEWS AND INFORMATION FROM GEORGETOWN HOSPITAL

### Volunteering at Georgetown Hospital

Looking for a new challenge? Interested in volunteering? Have you ever considered volunteering at your community hospital? The Georgetown Hospital Volunteer Association has a variety of volunteer opportunities available for men, women and youth 14 years of age and up.

Hospital volunteers support the work of our staff by spending the time to touch the lives of our patients and visitors by helping them throughout the hospital. A number of hospital programs and services benefit from the time, talents and energy shared by our volunteer teams working in both direct patient care and behind the scenes.

If you are interested in joining our team, please call the Georgetown Hospital Volunteer Association at 905-873-0111, extension 8153, or check out our web site at [www.haltonhealthcare.com](http://www.haltonhealthcare.com).

### Parking Upgrades at Georgetown Hospital

More parking spaces... lighting ... a greener and more aesthetic parking area and a pedestrian walkway are just a few of the improvements underway at the Georgetown Hospital's South Parking Lot.

The Expansion and Reconstruction Project of the parking lot will be completed in November 2006. The project includes paving the gravel portion of the existing south parking lot to create additional parking for 40 vehicles, improved wheelchair access, upgrades to the pedestrian pathway, separate entrance and exit gates as well as lighting and landscaping enhancements.

The second phase of the project, which includes some additional landscaping, is scheduled for 2007.

### Kiwanis Club Provides a More Comfortable Wait

Our thanks to the Georgetown Kiwanis Club who donated \$30,000 to support the refurbishment of the Georgetown Hospital's ER waiting room. The new furniture, a new children's activity area, new floor and a fresh coat on the walls and trim have really spruced up the area.

Special thanks to the Georgetown Kiwanis Club for their generosity. This project has completely transformed the waiting area and greatly improved the comfort for those coming to our Hospital for care.
