Halton a one-window resource for potential and experienced exporters

Halton Region's export program is a leader in promoting export market diversification in Canada. Halton's Business Development Centre employs a "one-window" resource approach to provide advice, education and resources for businesses interested in exporting. One way the Region supports new exporters is through The Export Alliance, a program that uses a mentoring approach to help local businesses diversify into Mexico. This initiative was selected as a key component of the federal government's five-year Commercial Strategy for Mexico.

Halton's Export Consultants offer advice and seminars for new and experienced exporters, and numerous resources are available to assist companies with international trade. Visit www.halton.ca and select "Business" to find out more about how the Region is supporting Halton's exporters.
