SMART & ELEGANT HOLIDAY DECORATING

By Carol Donayre Bugg, ASID

Vice President and Director of Design

For showcasing holiday decorating ideas there was no better example than this exquisite dining room. The decorator has created a festive look while maintaining a link with the established colors and style of the room. Let the design concepts she used guide you with your decorating plans to celebrate this glorious season.

COLOR HARMONY...To produce the most visually pleasing results it is best to select holiday decorations that blend in with the existing colors of a space. The chocolate, blue and rose in the Aubusson rug were the decorator's inspiration for the dining room's color scheme. When it came time to dress it up for the holidays she stayed within the same palette, as with her selection of heavenly blue, green, and bronze glass balls, and the faded rose centerpiece and napkin rings.

DEVELOPING A THEME...Settle on a theme and carry it throughout the space. Here the decorator decided on a Christmas Garden motif, a perfect complement to the elegant country French decor of the dining room. Faux stone and porcelain cherubs, reminiscent of garden statues are featured on the sideboard and as handles on the unique urn that holds an array of the glass balls. Two miniature Xmas trees with tiny lights suit the season and the theme.

ADDING CANDLES AND TOUCHES OF GOLD...No matter the colors or style of a room candles and gold are always appropriate and inexpensive ways to add glamour and romance to holiday decorating. In our featured room, a large mirror doubles the sparkle of the votive candles, golden trees and branches, and the glass balls the decorator has placed atop the sideboard. On the table a grouping of large candles in baroque holders and a luxurious beaded-edge panne velvet table runner, strewn with more of the beautiful decorations, perpetuate the Old World garden theme.

FAUX IS FABULOUS...A final tip from our wise decorator, incorporate no-maintenance artificial greenery and flowers into your scheme. Beyond today's fakes looking so fabulous, you will eliminate the stress of taking care of live trees and such. Put your energies to better use, and allow yourself more time to savor this glorious time of year.
