... Lend Me Your Ears

By Cory Soal
 R.H.A.D.

LOSS OF HEARING DUE TO NON-AGING FACTORS

Hearing loss due to aging can be compounded by other things. A few of these include noise exposure, disease, and ear infections.

Hearing loss due to age and noise are cumulative. That is, hearing loss from noise exposure will be added on to hearing loss due to aging. Neither are not medically correctable. There is something to be said for protecting the hearing that we have left by wearing hearing protectors when exposed to noisy environments.

Each of us reacts differently to hearing loss. We may totally or partially deny that a problem exists. Typical "denial" statements are "you're mumbling again", or "I was not paying attention", and can be a way of concealing hearing difficulties.

Tooth Chatter

by **ALEX TRENTON DENTURIST**

CLEANING YOUR DENTURES

Keeping your dentures clean is the most important patient responsibility in good oral health. Dentures, like natural teeth, attract plaque, become stained and collect food particles that can cause bad breath. The two best methods of cleaning dentures are brushing and soaking.

SOAKING

Soaking your dentures every night with an effervescent tablet will effectively cleanse away food particles from crevices and spaces between the teeth. It will remove plaque and odour-causing film, and eliminate virtually all micro-organisms.

BRUSHING

The most effective cleansing method is brushing with a special denture brush and paste. Use a special denture paste, as regular toothpaste may be too abrasive, and can damage the acrylic surface of your dentures. Brushing daily will maintain the bright natural appearance, as well as leaving your mouth feeling fresh. Brushing is recommended for removal of plaque. The best cleaning method is to combine both brushing and soaking.

We can clean your dentures professionally for stubborn stains and build up. Also, "Lavdent denture Cleanser" is available through our office, and is the next best thing to Professional denture cleaning.

You do not need a referral; simply call our office direct.

Gas shortage affecting some Halton Hills stations

Continued from pg. 1

"It takes time. It's a very unusual situation. A number of things have come together at the same time to produce a very tight supply in Ontario and Quebec," said Shell Canada spokesperson John Peck.

If the St. Lawrence Seaway were open, ships could bring fuel into southern Ontario easily, but the ice will remain for at least a month.

Across the province Imperial Oil has had to close about 100 Esso stations, or about 25 per cent, of its 400 stations because of sup-

ply problems.

Petro-Canada has had to impose gas rationing at 80 outlets, limiting motorists to 75 litres per fill-up, however a spokesperson at the Petro-Canada at Guelph and Sinclair said that hasn't been the case at that station or other area Petro-Canada outlets as far as she knew.

Driven by supply and demand, prices jumped from 84 cents a litre to nearly \$1 a litre in just two weeks.
