CLEANING YOUR DENTURES

Keeping your dentures clean is the most important patient responsibility in good oral health. Dentures, like natural teeth, attract plaque, become stained and collect food particles that can cause bad breath. The two best methods of cleaning dentures are brushing and soaking.

SOAKING

Soaking your dentures every night with an effervescent tablet will effectively cleanse away food particles from crevices and spaces between the teeth. It will remove plaque and odour-causing film, and eliminate virtually all micro-organisms.

BRUSHING

The most effective cleansing method is brushing with a special denture brush and paste. Use a special denture paste, as regular toothpaste may be too abrasive, and can damage the acrylic surface of your dentures. Brushing daily will maintain the bright natural appearance, as well as leaving your mouth feeling fresh. Brushing is recommended for removal of plaque. The best cleaning method is to combine both brushing and soaking.

We can clean your dentures professionally for stubborn stains and build up. Also, "Lavdent denture Cleanser" is available through our office, and is the next best thing to Professional denture cleaning.

You do not need a referral; simply call our office direct.

Teens responsible for Sally Ann store break-in

Halton Police have identified three Georgetown male youths responsible for the break and enter and damage done at the Salvation Army Thrift Store overnight March 17/18.

Police report two 15 year-olds and a 16-year-old were responsible and the majority of items taken during the incident have been recovered.

The youths were not charged, but instead will take part in the Halton Regional Police Diversion program.

During the incident condiments had been removed from the fridge and sprayed throughout the store— on clothing, walls, the ceiling, counter cash register and counterfeit bill detector.

The Red Shield box was emptied, and several CDs, videos and a Princess Diana collector plate were taken.

Police remind area residents to ensure their doors and windows are locked when they go out, or go to bed, after a home on Prince Charles Dr. was entered early Thursday morning while the homeowners slept.

Police say the homeowners were awakened by the sound of the door opening. The woman screamed and the suspect fled on foot. Police do not have a description of the suspect.
