Bulldogs' roundup

The Halton Hills bantam #2 Bulldogs received a pair of goals each from Warren Brayne and Dylan Britton while Michael Nicolucci earned five assists in their 8-6 win over Oakville #2 to start the regular box lacrosse season.

Halton Hills #2 8, Oakville #2 6: Brayne, Britton (2G); Brandon Clelland (G, 3A); Joshua Phillips, Tyler Highfield (G, A); Brian Timmermans (G); Nicolucci (5A).

Pee wee #2 Bulldogs

Stevie Rosa made his return to the Pee wee #2 Bulldogs' lineup and scored twice but that wasn't enough as Newmarket prevailed 6-4.

Newmarket 6, Halton Hills 4: Rosa (2G); Matthew Hopson, Cory Highfield (G, A); Adam Dobis, Jacob Hector, Cody Menzies (A).

Mississauga 7, Halton Hills 1: Hector (G); Menzies (A).

Pee wee #1 Bulldogs

Two goals each for Sebastian Beckett and Connor Brown helped the Pee wee #1 Bulldogs continue their strong start.

Halton Hills 5, Orangeville 4: Beckett, Brown (2G); Jacob Harris (G, A); Daniel Nicolucci, Ben Nicolucci (A).

Squash champs declared

The Regional Municipality of Halton

iRecycle

because it teaches responsibility.

And not just responsibility within the family, but responsibility to the community and to the environment.

- Myers Family

NOTICE OF PESTICIDE USE

The Halton Region Health Department monitors standing water and catch basins for mosquito larvae each West Nile virus season. The surveillance is limited to those in urban areas that are on public lands in Burlington, Halton Hills, Milton, and Oakville. When mosquito larvae are found, the Health Department uses larvicide to control the larvae in order to reduce the incidence of West Nile virus in Halton. Larvicide will be applied by a licensed applicator contracted by the Region.

In Standing Water

Throughout the summer, larvicide will be applied to standing water sites under the direction of the Medical Officer of Health, Dr. Bob Nosal. A granular formulation of the larvicide Bti (Bacillus thuringiensis israelensis), Aquabac™ 200G, registration number 26863, will be placed in affected standing water in urban areas on public lands in Burlington, Halton Hills, Milton, and Oakville. Signs will be posted at each location indicating when the larvicide was applied.

In Catch Basins

Throughout the summer and through to October 31, 2007, larvicide will be applied to catch basins under the direction of the Medical Officer of Health, Dr. Bob Nosal. A pellet and/or briquet formulation of the larvicide methoprene (Altocid®), registration number 21809 for pellet formulation, 27694 for briquet formulation, will be placed in catch basins in urban areas on public lands in Burlington, Halton Hills, Milton, and Oakville.

For the locations and dates of treatment, please visit our website at www.halton.ca/wnv. For more information about West Nile virus, please call Halton Region.
