

# Pain medication stolen from car on Sinclair Ave.

A large quantity of pain medication was taken sometime late Tuesday or early Wednesday from a car parked at a Sinclair Ave. residence.

The medication— it contained

100 80 mg OxyContin tablets— was in a labeled prescription bottle from Zeller's Pharmacy.

Halton Police say the medication has the potential to be extremely harmful or even fatal if

misused, especially if ingested by a child.

Anyone with information about the incident is asked to call Halton Police at 905-878-5511 or Halton Crime Stoppers at 1-800-222-TIPS.

## Interfaith discussion

Students at Christ the King Catholic School recently participated in a pilot project between the Interfaith Council of Halton and the Halton District School Board in which a number of religious groups from around the Greater Toronto Area made presentations to all Grade 9 students. Representatives of the Halton Sikh Cultural Association conversed with the students and answered questions about Sikhism. Eight other faith groups visited the school and organizers plan to introduce the cultural exchange to all 27 high schools in Halton next year.

## The big spring clean-up in one weekend!

The time has come to open the windows and tackle the spring clean-up. No need to panic! In just two days, every room can be fresh and clean. Remember that planning is the key to success; if you want to finish quickly, be sure to schedule and properly organize your spring clean-up.

### A few weeks before:

- Choose a date and warn the family.
- Make a list of the different tasks to be performed in each room, noting the expected time required to complete each task.
- Make sure that you have or that you reserve any special equipment you may require (a carpet cleaner, for example).

### One week before:

- Prepare a garbage bin (things to throw out) and three boxes: things to give away, to repair, and to store.
- Each member of the family spends about fifteen minutes a day sorting through their things (books, toys, magazines, catalogues, etc.) and their clothes.
- Plan to avoid the need for family laundry during that weekend: the washer will be reserved for carpets, blankets, and curtains.

### Friday:

- Pick up and put away everything that is lying around.
- Prepare the tools and the products that will be needed.
- Distribute the tasks according to the ages and capabilities of each person.

### Saturday and Sunday:

- Get up early, have breakfast, put some lively music on for a few hours and get ready to attack!
- Start with a room where a carpet needs to be cleaned (so it has enough time to dry) and finish with the kitchen where there will be constant traffic throughout the weekend.

Good planning is the key to success.

If you want to finish quickly, you must schedule and properly organize your spring clean-up.

The perfect spring break—  
your whole house clean at once.
