## Student earns bronze

Silver Creek Public School student Merrick Fallah earned the Bronze Merit Award for his project named Final Warning for Global Warming at the Bay Area Science & Engineering Fair at Hamilton's McMaster University recently. Fallah, a Grade 8 student, studied the causes and effects of the greenhouse gases and what people can do to reduce the damage done to the environment. The aspiring computer technologist said he was inspired to undertake the project after watching former U.S. Vice President Al Gore's documentary on the subject, *An Inconvenient Truth*.
