SHIFT

50 years honoured

Acton Citizens' Band member and longtime friend Aldo Braida presented a plaque of appreciation to Dr. George Elliott during a special ceremony held recently at Trinity United Church. Trinity United Church hosted a tribute to Dr. Elliott to commemorate his 50 years as organist and music director of the church. He has been involved as leader with the band for more than 50 years too. Trinity organized an afternoon of celebration with former ministers, choir members, the congregation, as well as former and present members of the band.

Registration begins next week for TD Summer Reading Club

Kids of all ages are invited to join Halton Hills Public Library's free Lost Worlds TD Summer Reading Club!

Studies have shown that school-age children lose many of their reading skills over the summer months if they do not continue to read. The library's reading club will provide the incentive to keep kids reading. Kids will receive a free poster and booklet (while supplies last), printed in both English and French, and a calendar to keep track of their reading. They will earn prizes and stickers, and some lucky children will win \$50 bank accounts from the local TD Bank.

Register anytime beginning June 26. Please call 905-873-2681 ext. 2520 or 519-853-0301 or visit www.library.hhpl.on.ca.

DENTAL MATERIALS

Charles Goodyear invented a denture base material back in the mid 1800's. This material was called "Vulcanite". Vulcanite is a dark brown, semi-rigid rubber. Since then, denture base materials have come a long way, and vast changes and improvements have been made. Today very modern plastics and acrylics are used.

The artificial teeth on a denture were made from such materials as bone and ivory. Precious metals such as gold and silver were also tried. Even wood was used to make teeth!

Finally, porcelain and plastic teeth have replaced the former materials. We've come a long way since the days of "wooden teeth". Denture technology has been vastly improved for denture wearers, and they are continually discovering new techniques and materials.

Today, more than 5 million Canadian adults are wearing dentures. That's more than one out of every four people in Canada.

SMOKING is it worth it?

Someday, you'll be offered a cigarette or be tempted to smoke. Before you start, think about it: every drag you take screws up your body.

Smoking can cause permanent damage to your body. Once a person starts, it becomes extremely tough to quit.

And did we mention all that cash you'll be blowing in the process?

So, if you're tempted to start, ask yourself, "Is it worth it?"
