Be a neighbourhood power star with *peaksaver*™

Will you be a power star? It's easy. Join the *peaksaver*™ program and allow your local electricity utility to cycle down your air conditioning system temporarily during peak demand times this summer. They'll only do it if it's absolutely necessary to reduce the strain on the electricity system. You likely won't even notice a change in temperature or comfort level in your home and you'll get a good feeling because you're helping the environment. Plus, you'll get \$25 just for signing up...how cool is that! Visit everykilowattcounts.com/peaksaver to sign up. And thanks for being a power star.

Where Child Abuse Hurts Most

Sometimes the worst scars of child abuse can't be seen. Whether physical or emotional, abuse attacks a child's self-esteem and emotional development, leaving long-term emotional trauma and pain. You can help prevent child abuse by being a nurturing parent or caregiver. By letting children know they are special, competent and loved, you can help them develop positive self-images and happier futures.

If you feel overwhelmed, angry or frustrated as a parent, help is out there for you. Look in your area for support groups and services, or talk to a trusted friend, family member, pastor or doctor about what you can do to protect and support your child. If we all do our part to prevent child abuse, we'll get to the heart of the matter.
